

Mobile Digital Evidence - Android Analysis

Test No. 21-5550 Summary Report

Participants were provided with data yielded from an extraction of a smart phone. They were asked to analyze the sample and answer scenario based questions utilizing their own tools and methods. Data was returned from 89 participants and are compiled in the following tables:

	<u>Page</u>
<u>Manufacturer's Information</u>	<u>2</u>
<u>Summary Comments</u>	<u>7</u>
<u>Table 1: Digital Evidence Responses</u>	<u>8</u>
<u>Table 2: Additional Comments</u>	<u>176</u>

This report contains the data received from the participants in this test. Since these participants are located in many countries around the world, and it is their option how the samples are to be used (e.g., training exercise, known or blind proficiency testing, research and development of new techniques, etc.), the results compiled in the Summary Report are not intended to be an overview of the quality of work performed in the profession and cannot be interpreted as such. The Summary Comments are included for the benefit of participants to assist with maintaining or enhancing the quality of their results. These comments are not intended to reflect the general state of the art within the profession.

Participant results are reported using a randomly assigned "WebCode". This code maintains participant's anonymity, provides linking of the various report sections, and will change with every report.

Manufacturer's Information

The Mobile Digital Evidence – Android Analysis test consisted of evidence data acquired from an LG Android smartphone. Participants were asked to examine the extracted data pertaining to a simulated scenario using their own software and methods.

SAMPLE PREPARATION:

A scripted scenario based upon a financial fraud case was created to generate user data on the evidence Android device. The execution of the scripted crime took place between September and December 2020. An LG K40 LM-X420 smartphone was used to perform the activities and generate the intended artifacts.

The phone data was acquired via a file-system extraction of the smartphone using Cellebrite software and compiled into a zip archive. This file was uploaded to the CTS portal for participants to download. A MD5 checksum was calculated for the file to generate a unique hash value that allows participants to validate the successful download of the file.

SAMPLE VALIDATION/VERIFICATION:

The validation stage consisted of the examination of the phone data using various software to ensure the expected results could be achieved. Results from the predistribution laboratories were reviewed and certain questions were rephrased as necessary.

PLEASE NOTE: Questions marked with asterisks (**) did not show a clear consensus during preliminary review of the participants' responses. Further information and discussion will be available in the final summary report.

SCENARIO PROVIDED TO PARTICIPANTS

The owner of this phone, Gordon Jamerson, is the victim of financial fraud. A recent retiree, Gordon set up an Instagram account to share vacation photos with his friends, family, and grandchildren. Shortly after creating his Instagram account, Gordon received an unsolicited direct message from "Samantha", whose account has a profile photo of an attractive woman. Samantha complimented Gordon's photos and engaged him in conversation, asking about his travels and expressing interest in his career. Gordon continues the conversation and he and Samantha begin talking about work and family. Samantha tells Gordon she is an account manager with a firm that specializes in binary trading options. After some additional conversation Samantha explains she is looking for investors to buy into a program with very high returns and very low, almost no, risk. Gordon is interested and asks how he could participate in this investment. Samantha explains the process and tells Gordon to send her money via Western Union. As time passes, Samantha solicits greater and greater payments and investments, in the form of money orders, cash in the mail, and finally a wire transfer. After several weeks Gordon becomes suspicious when Samantha is unable to allow him to cash out his alleged earnings and goes to the police for help.

Manufacturer's Information, continued

<u>Question</u>	<u>Manufacturer's Expected Response</u>
1	<u>What was the START date and time of the phone extraction? Provide the answer in the time zone set for the device using the following format: Month DD, YYYY HH:MM AM/PM.</u> <i>December 09, 2020 06:34 PM</i>
2	<u>Two files were provided for this test, LG GSM_LM-X420MM K40.zip and LG GSM_LM-X420MM K40.ufd. The SHA256 of LG GSM_LM-X420MM K40.zip is 94E9A722C1C8A94523D3CF61E0B9FF824DFD7B3CA192200E03A6B7FBF5F0FD96. Provide the SHA1 HASH for this file (LG GSM_LM-X420MM K40.zip).</u> <i>70BF1C06546185A28B3CF67762CC8FF561D1D854</i>
3	<u>What method/type of extraction was performed?</u> <i>Filesystem, or Full Filesystem, or File System [Android ADB], or Qualcomm Live (Recommended) Filesystem</i>
4	<u>What is the version of extraction software used?</u> <i>7.38.0.12</i>
5	<u>The phone had service with what mobile service provider (wireless carrier)?</u> <i>T-Mobile</i>
6	<u>What is the make and model name/number of this phone (e.g. Apple iPhone 4c, Samsung S20)?</u> <i>LG GSM LM-X420MM K40 and variations representing the same information</i>
7	<u>What is the version of the operating system on this phone?</u> <i>9 or Android 9</i>
8	<u>What is the set time zone for this phone? Provide answer exactly as shown by the device.</u> <i>America/New_York</i>
9	<u>What is the ICCID number (with service) assigned to this phone?</u> <i>8901260053914615047</i>
10	<u>Provide the Device Phone Number (MSISDN).</u> <i>17036499750</i>
11	<u>Provide the device owner's full name.</u> <i>Gordon Jamerson</i>
12	<u>What is the account name (email address) for this device's backup account?</u> <i>gordonjamerson9@gmail.com</i>
13	<u>What is the SSID (name) of the Wi-Fi access point with BSSID (MAC Address) 30:5a:3a:c3:2e:e0 (connected to by this phone)?</u> <i>Skynet</i>

Manufacturer's Information, continued

<u>Question</u>	<u>Manufacturer's Expected Response</u>
14 <u>What is the password (Pre-Shared Key) for the Wi-Fi access point with SSID RCMP Surveillance Moose?</u>	<i>nopassword@\$</i>
15 <u>What is the name of the Bluetooth device with MAC Address 91:56:e0:b3:95:b0?</u>	<i>OontZ Angle 3 5B0</i>
16 <u>For the bluetooth device referenced in Question 15: What is the date and time of the record timestamp? Provide the answer as 24Hr UTC time in the following format: Month DD, YYYY HH:MM (UTC + 0).</u>	<i>December 07, 2020 01:04 (UTC+0)</i>
17 <u>What encrypted email app did the user install? (Note: this means email application, not secure messaging application)</u>	<i>ProtonMail</i>
18 <u>What is the version of the user-installed encrypted email app?</u>	<i>1.13.21 and/or 746</i>
19 <u>The preferences for the user-installed encrypted email app are configured with what logged in username?</u>	<i>gordongordonjamerson or gordongordonjamerson@protonmail.com</i>
20 <u>What is the path and filename of the file containing the word strigiformes?</u>	<i>/data/user_de/0/com.lge.ime/files/udb.bin</i>
21 <u>After listening to the voicemail message stored on the phone, what is the answer to this question (question 21)?</u>	<i>42</i>
22 <u>How many unique UNREAD SMS messages are on the phone?</u>	<i>26</i>
23 <u>Provide the content (text) of the SMS message SENT on 11/2/2020 at 1:36 PM UTC+0 ?</u>	<i>Good morning!! How are you?</i>
24 <u>What email address is associated with the contact with the phone number (312) 747-4300?</u>	<i>therealmarkeymarc@mail.com</i>
25 <u>What status does the call log database show for the call on 12/1/2020 at 3:27:02? (Choose from the following: Answered, Outgoing, Missed, Voicemail, Rejected, Blocked, WiFi)</u>	<i>Rejected</i>
26 <u>What phone number called the phone on December 1, 2020 at 1:52:15 PM UTC?</u>	<i>+18032129631</i>

Manufacturer's Information, continued

<u>Question</u>	<u>Manufacturer's Expected Response</u>
27 <u>What was the time duration of the (answered) call to "Thomas Wolf" on November 30, 2020?</u>	00:00:49 or 49 seconds
28 <u>What was the date and time of the LAST answered incoming call? Provide the answer in UTC using the following format: MM/DD/YYYY HH:MM AM/PM (UTC+0).</u>	12/04/2020 03:21 PM (UTC+0)
29 <u>What is the user's Instagram account username?</u>	jamersongordon
30 <u>What cryptocurrency related app(s) did the user install?</u>	BitPay, and BRD or Bread Wallet and variations of this response
31 <u>Describe the content of the file with MD5 Hash a5c245f0e727ff0add7d286f1c104be0.</u>	Reference to a cat (kitten) licking spoon and variations of this description
32 <u>Based on the content of the file with modified time of 12/08/2020 20:41:36 EST, provide the destination that the user LAST saved directions for?</u>	Collaborative Testing Services, 21331 Gentry Dr, Sterling, VA 20166
33 <u>On what date and time did the user create a note containing "quaesitum"? Provide the answer in UTC using the following format: MM/DD/YYYY HH:MM AM/PM (UTC+0).</u>	11/10/2020 01:17 AM (UTC+0)
34 <u>At what altitude/elevation (in meters above sea level) was the photo with MD5 hash ee504a83bd1a34c0372b76f3ef345b42 taken?</u>	114
35 <u>Provide the text visible in the image (photo) taken near Latitude: 38.207969 / Longitude: -78.384888.</u>	"SHEETZ ice" or "Fresh Food made to order"
36 <u>What website (URL or title) did the user visit on 12/7/2020 at 1:11:44 AM(UTC+0)?</u>	youtube.com or Rick Astley - Never Gonna Give You Up and variations of these responses
37** <u>For what application / account is there a token configured in the Authy 2-factor authenticator app?</u>	LastPass
38 <u>For what account / service did the user receive account confirmation / welcome emails on November 7, 2020.</u>	Facebook
39 <u>What is the full name of the contact who has a close-up picture of a cat's face for their profile photo?</u>	Jim Handsome

Manufacturer's Information, continued

<u>Question</u>	<u>Manufacturer's Expected Response</u>
40	<u>What size and kind of beverage (other than a milkshake) did the user order at Chick-fil-A on December 8, 2020?</u> <i>Large Chick-fil-A® Diet Lemonade and variations representing the same information</i>
41	<u>From what Starbucks store (number) did the user make a purchase on November 7, 2020? (Provide store number only)</u> <i>10622</i>

Summary Comments

The purpose of this Mobile Digital Evidence (MDE) Test is to allow participants to evaluate their proficiency in analyzing digital artifacts using their own tools and methods. The participants were provided with a scripted scenario, the data extracted from a smart phone, and a series of questions related to the extracted data. (See Manufacturer's Information for preparation details, test scenario, and test questions)

The participants were requested to analyze various digital artifacts including: image details, phone and network settings, native and third-party applications, communications, web browser history, and Geo-Location information.

Of the 41 total questions, one question (#37) did not reach a consensus response. This question asked for the application/account that there is a token configured in the Authy 2-factor authenticator app. The majority (62.5%) of participants did report the expected response of "LastPass" however, there were 15 participants that reported the Twilio Authy app and 11 that reported Gordanjamerson9@gmail.com which was the username for the LastPass account. For question #19, where participants were asked "The preferences for the user-installed encrypted email app are configured with what logged in username?", 17 participants (19%) reported one of the following similar inconsistent responses: gordonjamerson9@gmail.com, gordanjamerson9 or gordonsamerson9. For question #9, where participants were asked for the ICCID number (with service) that was assigned to the phone, 14 (16%) reported the ICCID number that did not have service and four other participants reported both the expected ICCID number (with service) and the ICCID number without service. For seven questions, all participants reported the expected response.

We realize that the Digital Forensics field is increasing in complexity and there are generally not many clearly-defined answers. Similarly, for this test, participants should follow their laboratory's policies and procedures when evaluating the MDE proficiency test questions.

Please Note: Several forensic software tools were utilized during the validation of this test and may be referenced during the discussion of results. CTS does not endorse any particular tools.

Question 2: Two files were provided for this test, LG GSM_LM-X420MM K40.zip and LG GSM_LM-X420MM K40.ufd. The SHA256 of LG GSM_LM-X420MM K40.zip is 94E9A722C1C8A94523D3CF61E0B9FF824DFD7B3CA192200E03A6B7F5F0FD96. Provide the SHA1 HASH for this file (LG GSM_LM-X420MM K40.zip).

Consensus Result: 70BF1C06546185A28B3CF67762CC8FF561D1D854

Expected Response Explanation:

The SHA256 digest is provided to ensure the participant had a valid download. It is also stored in the .ufd file. Any reliable hashing tool can be used to calculate the SHA1 digest for the extracted file.

Expected Response Illustration:

PowerShell hash calculation of LG GSM_LM-X420MM K40.zip

```

Windows PowerShell
> get-filehash -alg sha1 '.\LG GSM_LM-X420MM K40.zip'

Algorithm      Hash
-----
SHA1           70BF1C06546185A28B3CF67762CC8FF561D1D854
    
```

7zip utility hash calculation of LG GSM_LM-X420MM K40.zip

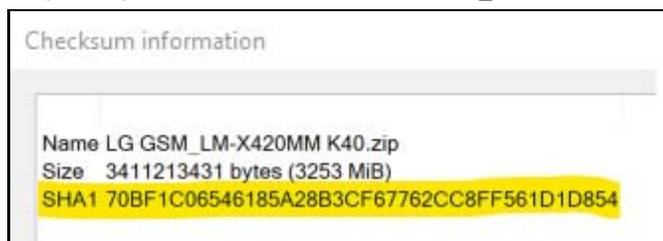

TABLE 1

Question 9 - Examination Questions

Other Responses:

Eighteen participants reported the ICCID number of 8901260063963047265 which did not have service at the time the phone data was acquired. The PA output and report does not make a direct correlation between the listed ICCID numbers and the associated provider(s). To determine which ICCID applies to which carrier the Hex view of the database should be accessed (highlighted below); here it shows a clear association between ICCID numbers and providers.

Question 10: Provide the Device Phone Number (MSISDN).

Consensus Result: 17036499750 and other formats of the same information

Expected Response Explanation:

This information is stored in the SIM and may not always exist in the handset memory. It must often be deduced from the contents of messages or account settings. On this handset the value is stored in com.tmobile.pr.adapt.ADAPTCLIENT.xml, and can be found in various account settings for several apps including WhatsApp, Signal, and Instagram.

Expected Response Illustration:

com.tmobile.pr.adapt.ADAPTCLIENT.xml

YH86LY	26
Z2GJHK	26
Z7XNEU	26 unread total but 16 of those are observed as sms despite being in the sms database tab
ZNNNZC	26

Question 22: How many unique UNREAD SMS messages are on the phone?

Consensus Result: Due to apparent ambiguity of the question as it relates to the interpretation of the term "unique", the following answers of 25 and 26 were accepted. There were two messages with duplicate body content but unique timestamps and other identifiers, some participants may have counted these messages as one unique message resulting in the response of 25.

Expected Response Explanation:

SMS Message information is stored in /data/user_de/0/com.android.providers.telephony/databases/mmssms.db. The "sms" table stores messages and data about them. The "read" field indicates the read status of the message. There are 26 records with 0 in the read field indicating "unread".

Expected Response Illustration:

ZNNNZC	Good morning!! How are you?

Question 24: What email address is associated with the contact with the phone number (312) 747-4300?

Consensus Result: therealmarkeymarc@mail.com

Expected Response Explanation:

Contact information is stored in /data/data/com.android.providers.contacts/databases/contacts2.db. A review of this database for (312) 747-4300 finds an entry in the phone_lookup table with "raw_contact_id" of "6" for "Mark Floorberg." In the "data" table records for raw_contact_id lists the email address therealmarkeymarc@mail.com.

Expected Response Illustration:

contacts2.db

Question 25: What status does the call log database show for the call on 12/1/2020 at 3:27:02? (Choose from the following: Answered, Outgoing, Missed, Voicemail, Rejected, Blocked, WiFi)

Consensus Result: Rejected

Expected Response Explanation:

Call log data is stored in /data/data/com.android.providers.contacts/databases/calllog.db. A review of this database finds the record for the above call (in the calls table) with the status of "5" which indicates that the call was rejected.

Expected Response Illustration:

Cellebrite "Call Log" table selection showing call on 12/1/2020 at 3:27:02

Question 27: What was the time duration of the (answered) call to "Thomas Wolf" on November 30, 2020?

Consensus Result: 00:00:49 or 49 seconds

Expected Response Explanation:

Call log data is stored in /data/data/com.android.providers.contacts/databases/calllog.db.

Expected Response Illustration:

Cellebrite "Call Log" table selection showing outgoing calls on November 30th to Thomas Wolf

	To: 8282504752	Thomas Wolf	11/30/2020 8:55:03 PM(UTC+0)	00:00:49	Answered
	To: 8282504752	Thomas Wolf	11/30/2020 1:34:40 PM(UTC+0)		Not answered

TABLE 1

Question 28 - Examination Questions

Question 28: What was the date and time of the LAST answered incoming call? Provide the answer in UTC using the following format: MM/DD/YYYY HH:MM AM/PM (UTC+0).

Manufacturer's 12/04/2020 03:21 PM (UTC+0)

Expected Response:

Question 28: What was the date and time of the LAST answered incoming call? Provide the answer in UTC using the following format: MM/DD/YYYY HH:MM AM/PM (UTC+0).

Consensus Result: 12/04/2020 03:21 PM (UTC+0) and all formatting styles including different time zones which represent the same information.

Expected Response Explanation:

Call log data is stored in /data/data/com.android.providers.contacts/databases/calllog.db. Filtering the list for answered calls and sorting by timestamp reveals that the last incoming call was answered at 12/04/2020 03:21:52 PM (UTC+0).

Question 30: What cryptocurrency related app(s) did the user install?

Consensus Result: BitPay, and BRD or Bread Wallet and variations of this response

Expected Response Explanation:

Information about installed applications is stored in /data/data/com.android.vending/databases/localappstate.db. Reviewing this file finds two cryptocurrency related apps, Bitpay and BRD Bitcoin Wallet.

Expected Response Illustration:
celebrite application insights

localappstate.db

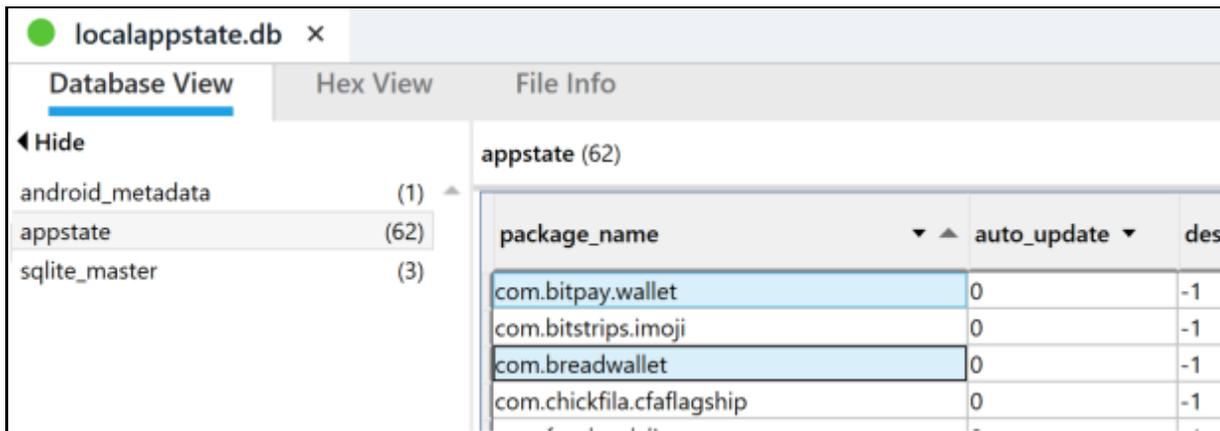

TABLE 1

Question 31 - Examination Questions

Question 31: Describe the content of the file with MD5 Hash a5c245f0e727ff0add7d286f1c104be0.

Manufacturer's Reference to a cat (kitten) licking spoon and variations of this description

Expected Response:

WebCode	Response
2MC97B	This file is a video cache file and is played for about 1 second (Original file : 6 Sec). The kitten gets up and eats something with a spoon.
2QFHGZ	video- A cat is feeding
2V7RQX	Cat video from Instagram
3LETCX	This moving image shows what I believe to be a kitten drinking milk from a spoon
44E4VU	A video of a cat licking a spoon.
4K3EHW	Little Cat eating/drinking
4NRJQK	This is a video file which shows a cat playing
4TG3JQ	A 6 second video file showing a kitten standing on it's hind legs licking a teaspoon, held by an unknown person
6GX8GW	a kitten playing with a spoon that is being held in a human hand.
6U42BU	A moving image of a black and white coloured cat with two feet on ground while stretching to hold and lick a table spoon being held by someone.
7JBXVH	Cached Instagram video of a kitten / small cat licking a spoon next to a bare foot
7JJCQE	video of a kitten
8B2ZBT	On a wooden floor a kitten is standing on its hind legs; while jointly holding in its front two paws with an adult something black that the kitten is licking. One adult bare foot is visible.
8NQZ3V	Cat standing on back legs eating from a spoon.
9C78QQ	It is a video of a kitten licking a spoon.
9HHYJC	A video of a kitten eating from a spoon.
B3F9DQ	A grey kitten standing on its hind legs drinking from a metal teaspoon
B8BZLM	A video of a cat.
BEBE9A	A video of a kitten licking from a spoon
BH92XQ	This is a video file that shows a kitten standing on its back legs and licking a spoon. The spoon appears to be held by a person (but you can't see the whole person in the frame - you can only see a small portion of the hand holding the spoon, and the tip of one foot/ the toes).
BPQALN	A Kitten standing in two legs eating from a spoon.
BTU67Q	Thumbnail of video, Kitten eating from spoon
BUL4JP	a standing kitty cat eating something
BUZM4L	A video of a kitten licking something off of a spoon.
BVTL28	Kitten licking from a spoon

TABLE 1

Question 31 - Examination Questions	
WebCode	Response
C79P3P	An mp4 file approximately 81KB in size located at: LG GSM_LM-X420MM K40.zip/data/data/com.instagram.android/cache/ExoPlayerCacheDir/videocache/2460097279097405105_3071559847.null.17874484553067998vd.-1.130884614_420880652600587_3612932430948483542_n.mp4.0.1607554294794.v2.exo/2460097279097405105_3071559847.null.17874484553067998vd.-1.130884614_420880652600587_3612932430948483542_n.mp4. Depicts a small fluffy animal consistent with a kitten aggressively attacking a spoon that is being held by what appears to be a human hand.
CBPXQN	This is a video file of a cat, appearing to eat something off a spoon.
CMW3GG	A brown/grey cat standing up with its two legs and it appears to be licking a spoon. A hand appears to be holding the spoon.
CNYNEH	Video of a kitten
CQKEFM	The file is an exo video from Instagram featuring a cat with a spoon.
DENLTG	Video of cat standing on hind legs
E3NJJK	video of a kitten licking a spoon
E8HDGL	Kitten standing on its hind legs licking the contents of a spoon being held out
EZZ9KE	Kitten standing on hind legs licking a spoon which is being held by an IC1 individual.
FF8LEG	Video file (2460097279097405105_3071559847.null.17874484553067998vd.-1.130884614_420880652600587_3612932430948483542_n.mp4, 2460097279097405105_3071559847.null.17874484553067998vd.-1.130884614_420880652600587_3612932430948483542_n.mp4.0.1607554294794.v2.exo). Cat is eating from spoon
FHXMK6	It's a very short clip of a kitten licking a spoon.
FN2Q9H	video clip of a kitten
G26EZC	A kitten standing on 2 legs.
G64QVC	The baby cat is licking the food in the spoon.
G8R3VH	The content of the file is a short video of a cat or kitten "standing" on it's hind legs licking something from a spoon.
GMJZWD	Video file of kitten licking a spoon
J2FXXE	Video of a kitten licking a spoon
J3QZJD	Appears to be a kitten standing on its back two legs holding and licking a spoon in a person's hand.
J6G2P2	Video of a cat eating from a spoon
J99YP6	The standing cat is eating something on the spoon.
JABU6B	It is a kitten licking a spoon.
JKQQ33	Kitten Video
LAJR6D	Kitten Video
LFPNND	Kitten being fed

TABLE 1

Question 31 - Examination Questions	
WebCode	Response
M3XEGX	The file is a video file, which depicts a cat licking a spoon being held by a person.
MDD9UC	Video of a kitten standing and eating from a spoon.
MYY3KX	Kitten video standing on rear legs licking any object
N7XPBC	Video of a kitten
NKU4B7	video file - kitten on hind legs eating from spoon
NZR7X6	Video of a kitten licking a spoon
P2XZ7A	There is a Kitten standing up on its rear legs.
PEMW99	It is a video of a kitten standing on its back legs licking a spoon
PHLBTC	Kitten licking the spoon
Q328NT	A short video of a kitten standing on his/her back legs eating/drinking off of a spoon.
Q9QRRR	A black, white and grey kitten on his feet licking a spoon
QCCAAU	Video of a kitten standing on back legs drinking from a spoon
QPXBKL	Video of a cat licking a spoon
QR2H68	Food-eating Cat Video
R9AVZA	There is a small cat, which is being fed by a barefoot person, with a small spoon.
RLZJF3	A cat licking from a spoon
TBUXQF	Video of cat licking a spoon
TWBK68	Kitten standing on hind legs licking a teaspoon.
UGDP88	This file is the start of a video that depicts a small kitten standing on its hind legs. It is recovered from cache via the Instagram application.
UU4CNZ	Video of a kitten eating off a spoon.
UWP4P6	A short video clip of a kitten standing, licking a spoon from someone who is barefoot
UWZRKH	Video of a kitten standing up and eating
UYTY99	A small white cat with brown stripes standing on its hind limbs licks a spoon served by someone. And it holds the spoon with its right front foot.
VCZ8PQ	Foot on wood floor along with a standing feline that is being presented a spoon by a hand to the feline's face.
VMY6B6	Kitten standing on two legs licking something
VQXF86	Kitten eating/drinking from a spoon
VTXPP	Video file of a cat licking a spoon
WNQG3	Video of cat licking a spoon from instagram
W4XGJ7	.exo File from instagram

TABLE 1

Question 31 - Examination Questions	
WebCode	Response
W98U26	A video of feeding a little cat.
WPV8FW	Shows a cat stood on its' hind legs licking a spoon.
XDH8J3	00:06 second video of gray and black tabby kitten raised on back legs licking spoon held by unknown person.
XURWW4	Animal(seems like a cat) licking something from a spoon and standing on his feet
XV3YH3	Its an ".mp4" format video of an unknown type of animal standing on its feet, Licking something from a spoon.
Y8QK23	LG GSM_LM-X420MM K40.zip/data/data/com.instagram.android/cache/ExoPlayerCacheDir/videocache/2460097279097405105_3071559847.null.17874484553067998vd.-1.130884614_420880652600587_3612932430948483542_n.mp4.0.1607554294794.v2.exo
YCL3NU	A kitten licking a spoon.
YH86LY	Video - Cat standing on two feet and eating from a spoon
Z2GJHK	A video of a kitten drinking from a spoon
Z7XNEU	Cat on hind legs licking something
ZNNNZC	This file is a video cache file and played for about 1 second(Original file shows about 6 Sec). The kitten gets up and eats something with a spoon.

Question 31: Describe the content of the file with MD5 Hash a5c245f0e727ff0add7d286f1c104be0.

Consensus Result: Reference to a cat (kitten) licking spoon and variations of this description

Expected Response Explanation:

A global search for files with this hash discovers

/data/data/com.instagram.android/cache/ExoPlayerCacheDir/videocache/2460097279097405105_3071559847.null.17874484553067998vd.-1.130884614_420880652600587_3612932430948483542_n.mp4.0.1607554294794.v2.exo

Expected Response Illustration:

Screen Capture from ~0.1607554294794.v2.exo

Question 32: Based on the content of the file with modified time of 12/08/2020 20:41:36 EST, provide the destination that the user LAST saved directions for?

Consensus Result: Collaborative Testing Services, 21331 Gentry Dr, Sterling, VA 20166

Expected Response Explanation:

The destination last saved can be found by reviewing filesystem metadata in a timeline. There are two files with the modified time listed in the question, saved_directions.data.cs and offline_saved_directions.data.cs; both are found within /data/data/com.google.android.apps.maps/files/.

Expected Response Illustration:

Z7XNEU	11/10/2020 01:17 AM (UTC+0)
ZNNNZC	11/10/2020 01:17 AM

Question 33: On what date and time did the user create a note containing “quaesitum”? Provide the answer in UTC using the following format: MM/DD/YYYY HH:MM AM/PM (UTC+0).

Consensus Result: 11/10/2020 01:17 AM (UTC+0)

Expected Response Explanation:

A review of the device “Notes” or a keyword search for “quaesitum” would discover Google Keep Notes stored in /data/data/com.google.android.keep/databases/keep.db.

Expected Response Illustration:

keep.db

Question 34: At what altitude/elevation (in meters above sea level) was the photo with MD5 hash ee504a83bd1a34c0372b76f3ef345b42 taken?

Consensus Result: 114

Expected Response Explanation:

Searching the extraction for files with the indicated MD5 hash identifies one photo, data/media/0/DCIM/Restored/20201102_114610.jpg. The embedded EXIF metadata contains the GPS fix altitude for the capturing device at the time the photo was taken.

Expected Response Illustration:

ZNNNZC	Twilio Authy 2 - Factor Authentication(24.3.7) / gordonjamerson9@gmail.com	

Question 37: For what application / account is there a token configured in the Authy 2-factor authenticator app?

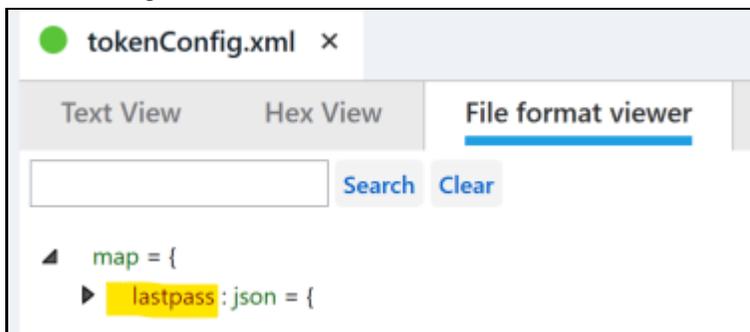

Consensus Result: While a majority (62.5%) of respondents provided the expected response of "LastPass", a consensus was not achieved for this question. The objective of this question was for the participants to locate and parse the configuration files for the Twilio-Authy app and determine that the app stored a token for only one account, LastPass.

Expected Response Explanation:

Configuration for tokens in the Authy app are stored in /data/data/com.authy.authy/shared_prefs/tokenConfig.xml. This file contains configuration information for only one account, LastPass

Expected Response Illustration:

tokenConfig.xml

Other Responses:

Fifteen participants provided the name of the Twilio Authy app instead of the application (or account provider) for which the Twilio Authy app contained a 2-factor token. Eleven participants provided only a user account name (that could be associated with many different services) but did not identify the application for which Authy contained a token.

Question 38: For what account / service did the user receive account confirmation / welcome emails on November 7, 2020.

Consensus Result: Facebook

Expected Response Explanation:

Email messages are stored in /data/data/com.google.android.gm/databases/bigTopDataDB.379394306. There are five messages from the specified date listed in the question. Three are from Facebook, one (from Facebook) contains a welcome message.

Expected Response Illustration:

Question 39: What is the full name of the contact who has a close-up picture of a cat's face for their profile photo?

Consensus Result: Jim Handsome

Expected Response Explanation:

Contact profile photos are stored in data/data/com.android.providers.contacts/files/photos. Within this directory are three photos, including one of a cat with the filename of "1". The "contacts" table in /data/data/com.android.providers.contacts/databases/contacts2.db indicates the "photo_file_id" of "1" corresponds to contact_id of "7" which is linked to Jim Handsome in the raw_contacts table. The Cellebrite contacts tab correlates the above database records to associate the relevant contacts to the photos.

Expected Response Illustration:

Cellebrite contact pane with Jim Handsome profile photo

Additional Comments

TABLE 2

WebCode	Additional Comments
2MC97B	We will need lowimage file(dd,bin) not cellebrite case(ufc).
4TG3JQ	The entire process is very tool specific. I have raised this issue in the past. Depending on the tool used, then not all answers will be identified. It's not just about you supplying a ufd file. ISO accredited Labs have to operate within their accredited methods and that is also tool specific. Questions such as tool version is unfair of practitioners not familiar with UFED. Running fuzzy wizard / App Genie etc similarly fall into that.
B8BZLM	Question #37 – I'm not sure if you were asking for the account name in addition to or instead of the application name but it is gordonjamerson9@gmail.com Question #38 - On 11/7/2020 – an email was received from Google photos also- it had the word welcome in it, but the wording of the question makes it sound like you are only requesting 1 service. Facebook seemed the more obvious since Welcome was in the subject line.
BUZM4L	QUESTION 22: The answer could be 16 or 26, depending on how one defines "SMS". There are 26 unread messages (out of 60 total) indicated within the sms() table in mmssms.db. 16 of these are from com.android.providers.telephony and 10 from com.android.mms. This would arguably indicate that these 10 messages are actually MMS messages and the correct answer is 16. On the other hand, one could argue that since Android lists them all within the sms() table, the correct answer is 26. I ran this image through Magnet Axiom and it lists all 60 text messages (including all 26 unread text messages) as "SMS", further muddying the water. Assuming further that we are looking for all 26 unread sms() entries, how do we define "unique". Based on unique timestamps on the device, the answer is 26. However, there are two messages that were recorded two seconds apart on 11/28 that contain the same message body. If those are not considered unique, the answer then becomes 25.
C79P3P	2. The answer given is SHA1 base 16. Another SHA1 base 32 is: OC7RYBSUMGC2FCZ46Z3WFTEP6VQ5DWCU. The question is not specific to which SHA1 hash function should be used. 6. The question asks for the model name / number, but the example given only has the model name. This could be confusing for test takers. 19. LG GSM_LM-X420MM K40.zip/data/data/ch.protonmail.android/shared_prefs/ch.protonmail.android_preferences.xml I 30. BRD Bitcoin Wallet. BTC, Bitcoin Cash, Ethereum is also referred to as breadwallet.
G8R3VH	The Scenario and Item Description document dated 23-Feb-21 incorrectly identified the extraction type as a physical extraction.
GMJZWD	Question 8: The extraction report did not clearly state what timezone the handset was configured in. This answer was formed from the Last Activation Time (showing as UTC+0). The report was not altered and settings left to show date/times same as original device. Question 20: Multiple searches for strigiformes within the extraction came back with zero results. The only hit I found was for a google search for Owls but believed this was not the correct answer. Question 37: Searching through the app's database, I found it was linked with multiple accounts but nothing was visible in regards to which tokens where configured with the Authy2 app. The question suggests one app/token is configured but I could not locate any information on configuration.
J3QZJD	Question 10: The device phone number (MSISDN) was not parsed and no number was listed in the common locations of that information, telephony.db or simcard.dat in this extraction but the number 17036499750 was listed at the path "/data/user_de/0/com.android.server.telecom/phone-account-registrar-state.xml" with the carrier and ICCID with service. The same number was also listed under user accounts such as

TABLE 2

WebCode	Additional Comments
	the Chick-fil-A mobile application, Instagram, WhatsApp, and mms preferences.
LAJR6D	As before there seems to be some problem with the file you guys are putting out. I get different results each time I open my Physical Analyzer and load the same file. Some words, MAC addresses etc. just do not exist in any way shape or form in an overall search and advanced searches. I cannot provide answers that do not appear in my extraction.
NKU4B7	This Pt has been provided alongside a UFD dump file which has an associated zip file. this PT has been developed with UFED as a tool preference, however to validate and identify best evidence, other vendor tools have been used to come to these conclusions.
UWZRKH	For question 20, I searched for the string using Cellebrite Physical Analyzer, Oxygen Forensic Detective, EnCase Forensic, and AXIOM Examine. None of the tools located this string in the image.
WPV8FW	The format HH:MM AM/PM is not a format commonly used in the UK. I have researched how this should look and although it appears the time should not be given in a 24hr format there appears to be no clear guidance to define if the preceding 'hour' zero should be dropped.
Z7XNEU	Question 22 Comment: The messages in the sms tab of the mmsms.db database file include a total of 26 unread messages. However 10 of those messages contain a shortened link or such that could classify it as an mms message. Therefore there are 26 total unread messages but 16 true unread sms messages. This was a little confusing. Question 25 Comment: This question like some others do not indicate a UTC timezone. The answer was assumed to be in UTC + 0 and matched to the MM:SS to get a clear answer. I think if some questions indicate a timezone and others do not it can be confusing forcing some assumption on the analysts part. Question 26 Comment: For this question UTC is listed as the timezone in that format however in Question 23 it is indicated as UTC + 0. I think there should be more consistency in the timezone formats throughout the test. Question 38 Comment: My answer for this question was Facebook as I think that is what is expected however I think an argument could be made for the answer Google Photos. The text "Welcome to Google Photos" is listed in the subject of the email. The subject line also reads "Finish setting up your account" which could also serve as an account confirmation in my opinion.
ZNNNZC	thank you...
